

MARTA collection

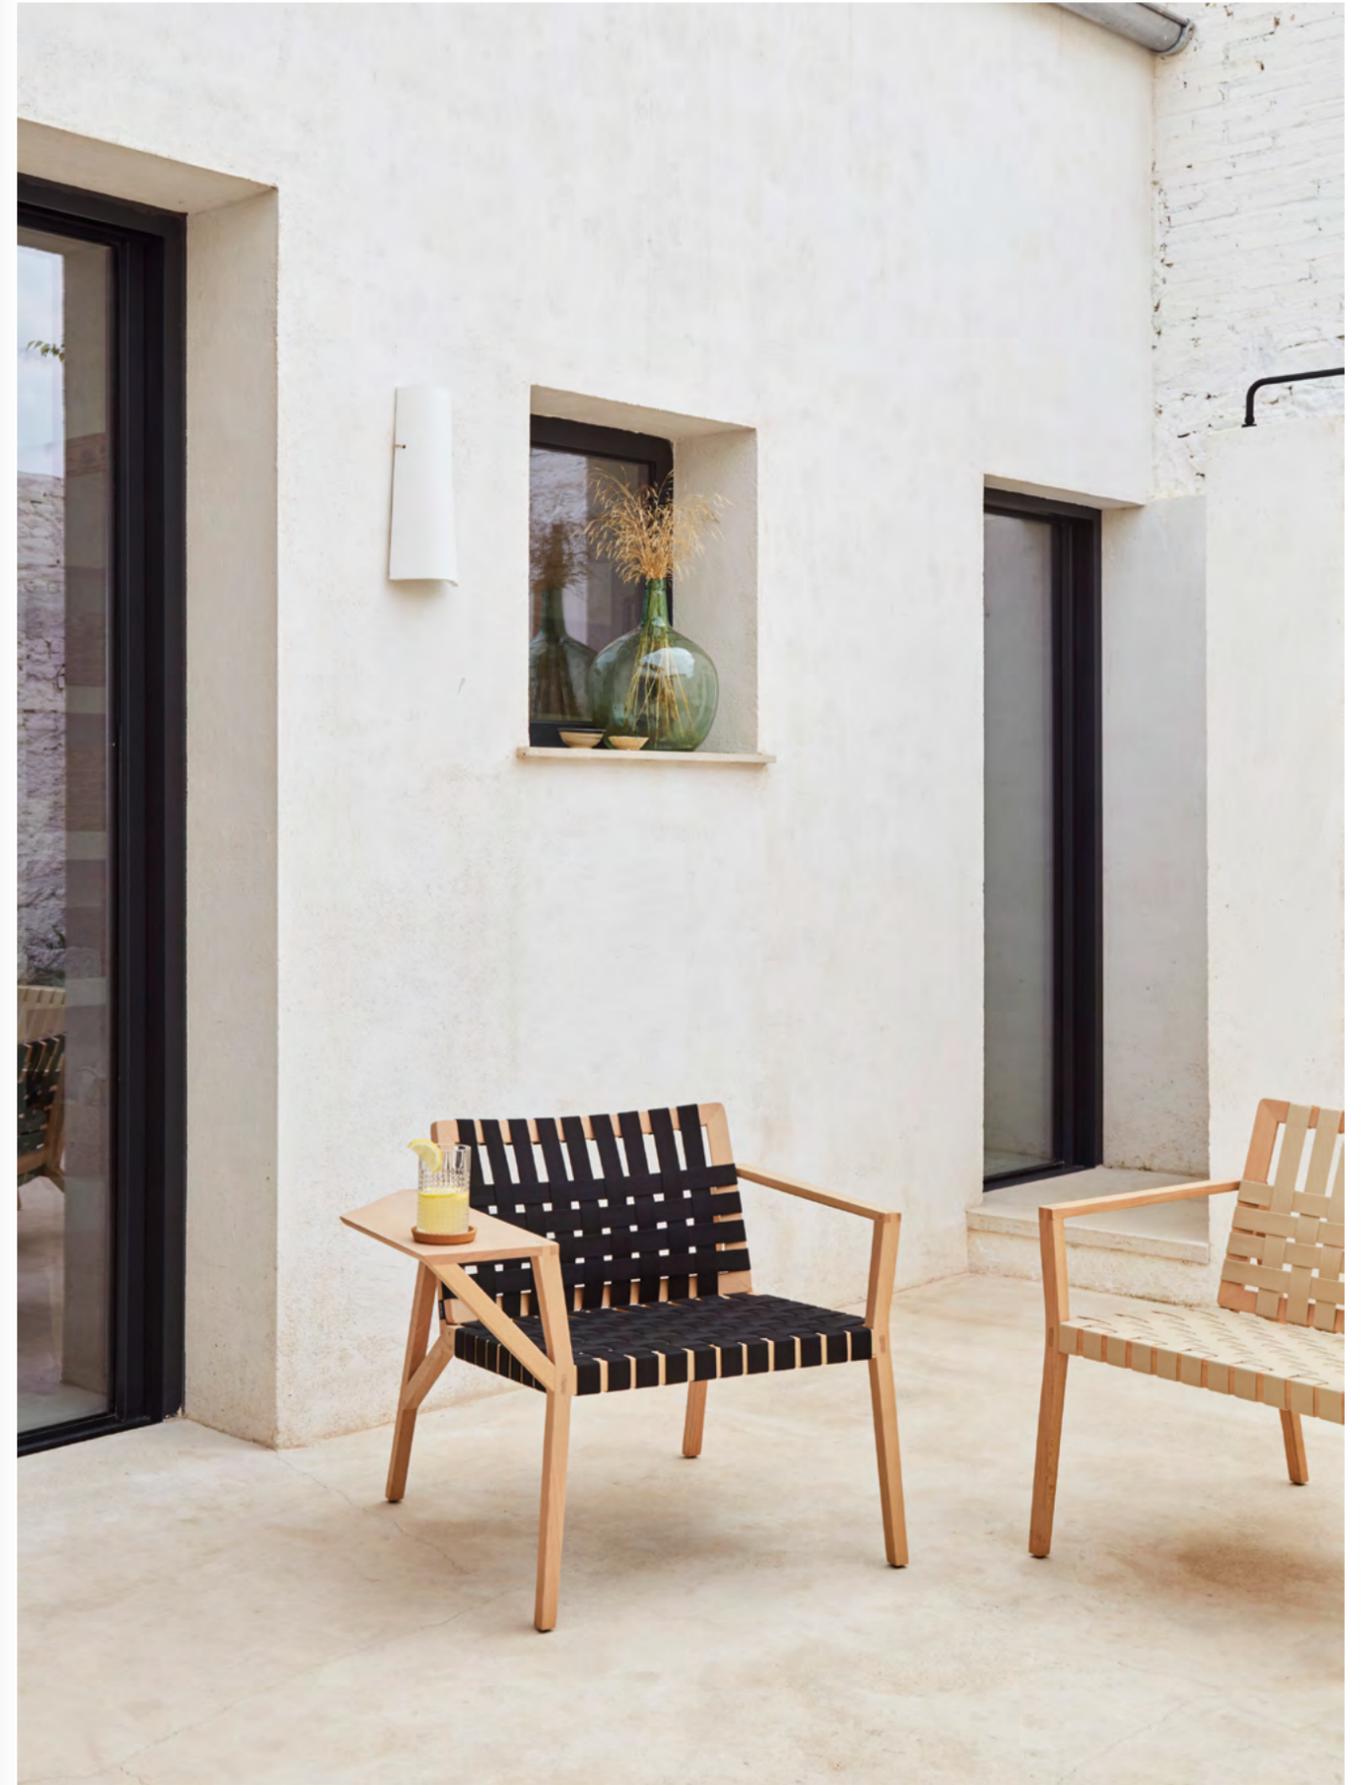

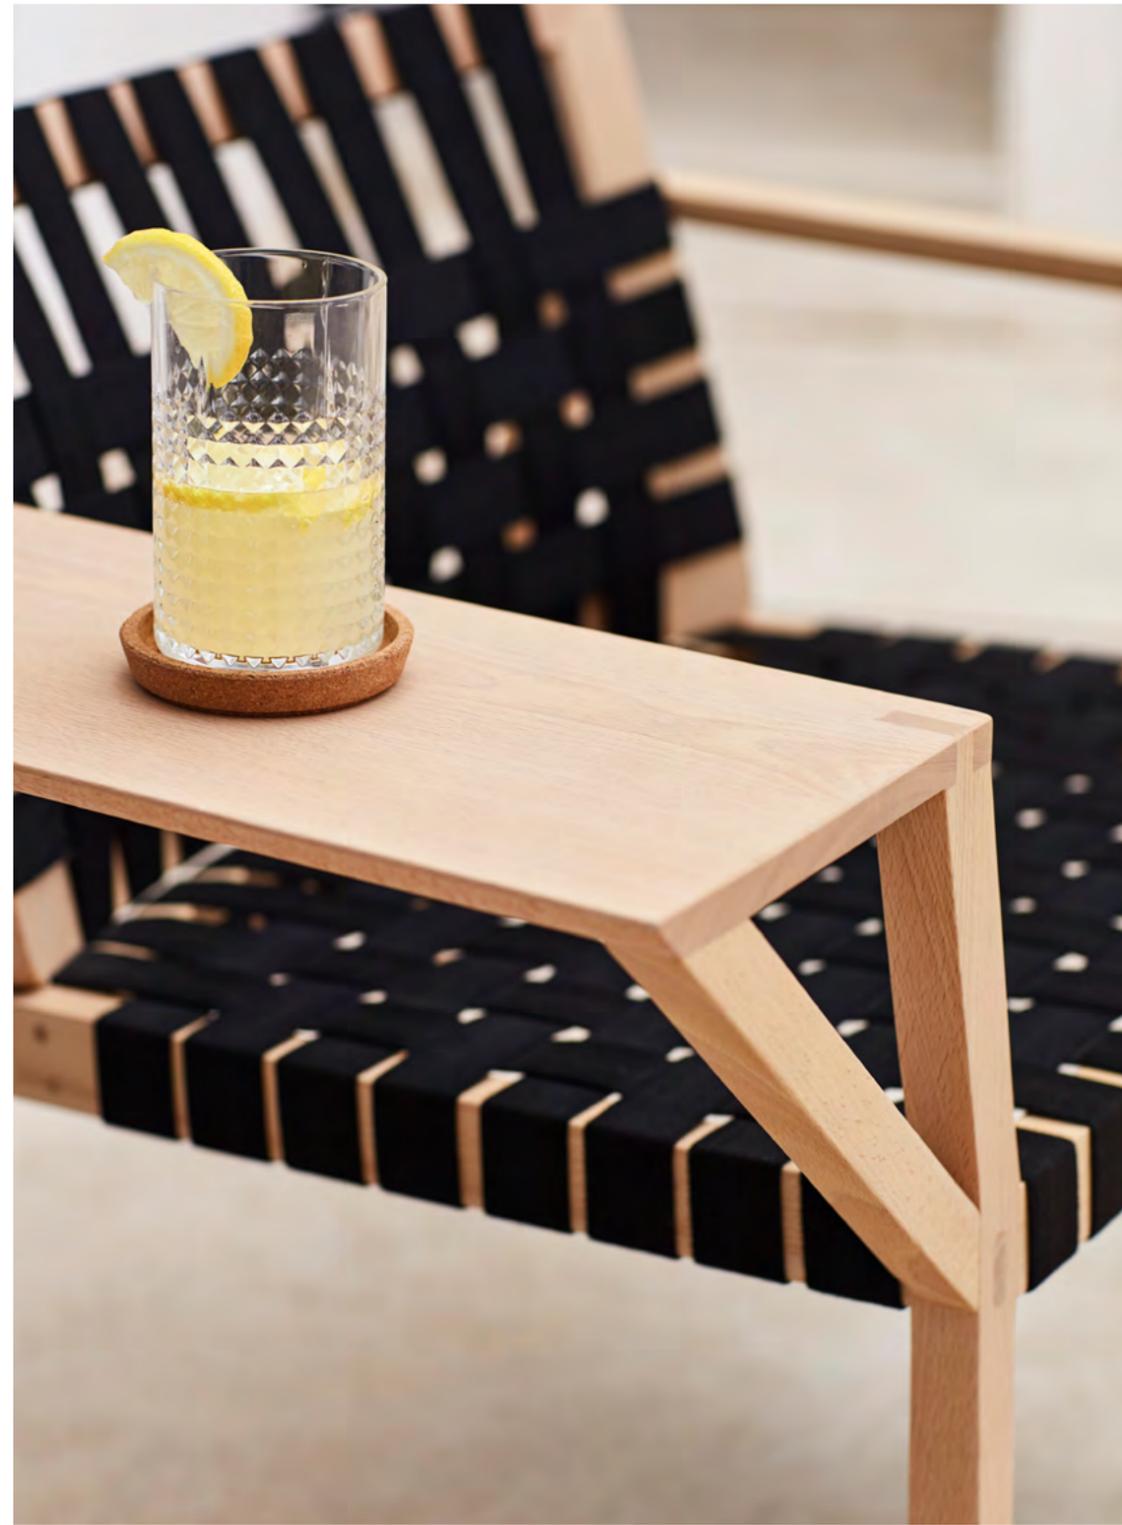

Design by Gabriel Teixidó

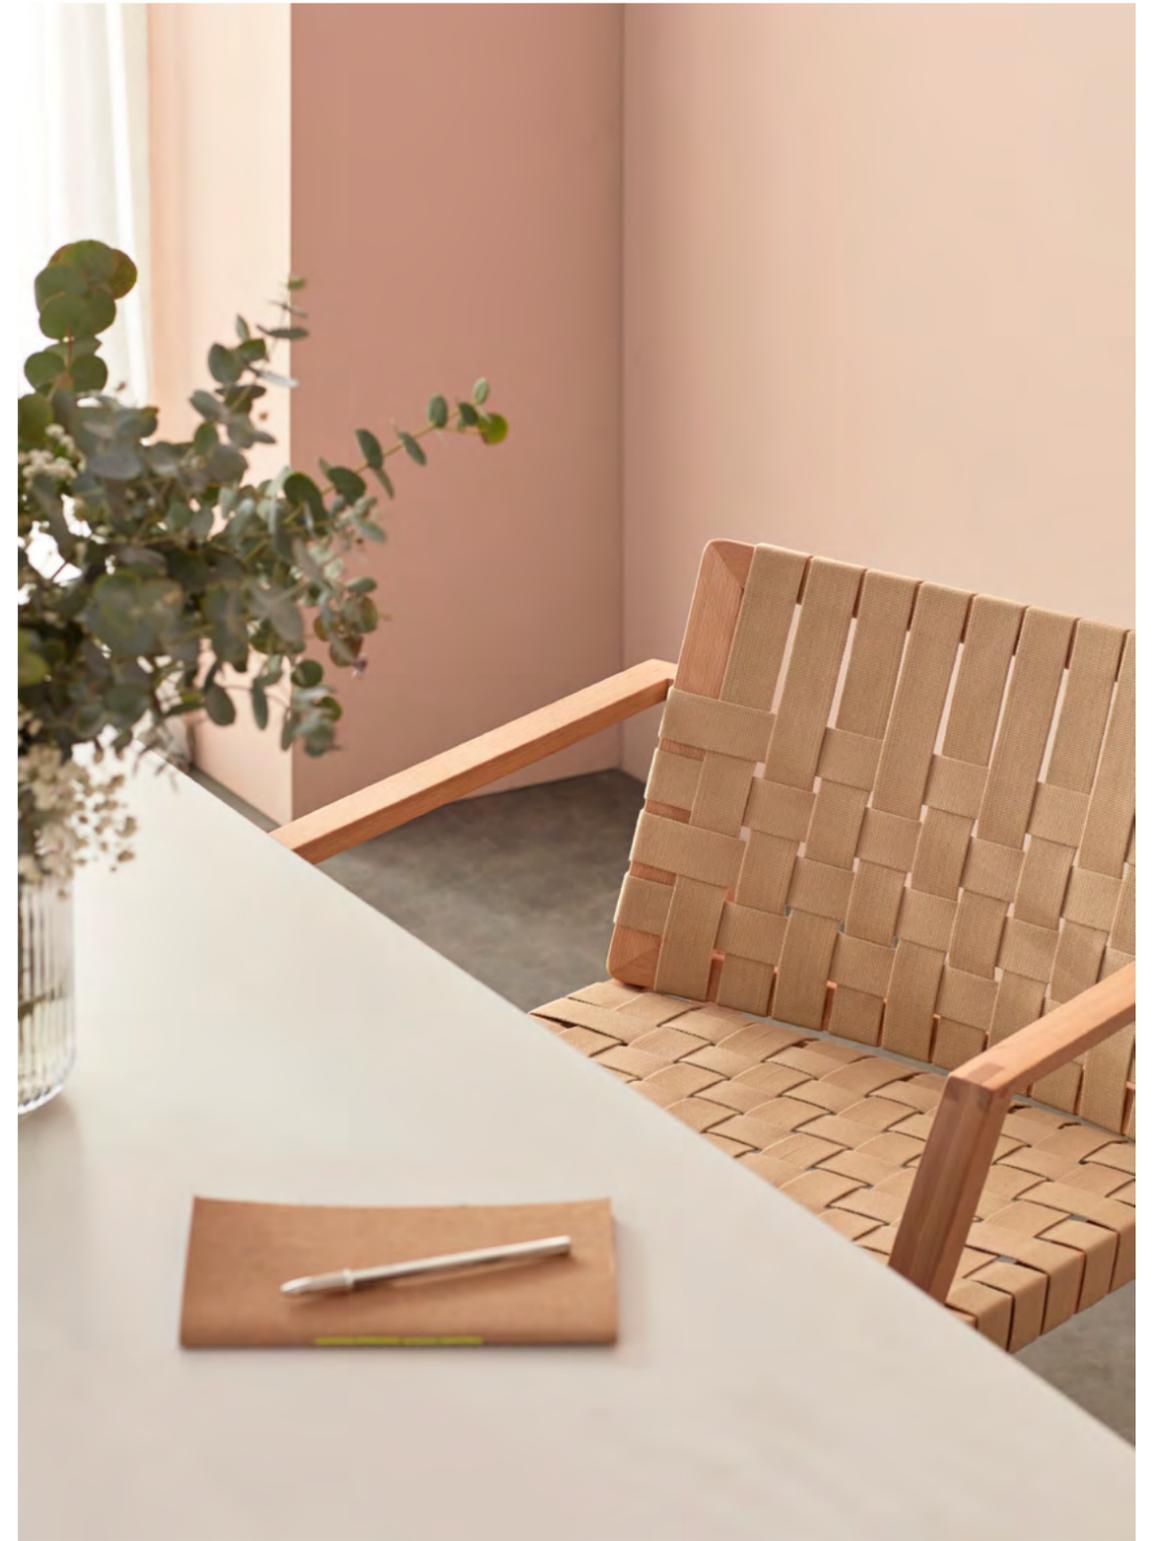

EN The Marta collection is born from a deep respect for wood. Its subtle design, light appearance and marked natural character make it suitable for very diverse environments.

Manufactured in a traditional way, its design with exposed interlocked joints is articulated around a beech wood structure combined with straps that provide strength and lightness at the same time to each piece.

Chairs, armchairs and low seats where you can caress and smell the wood. A magical experience where the material and the object merge.

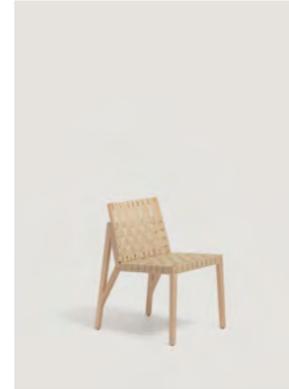

MARTA collection

Chair

240CC

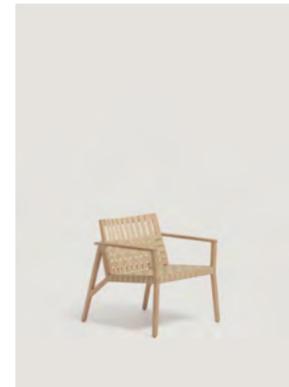

Chair with solid beech base and cotton strap seat and back

241CC

Armchair with solid beech base and cotton strap seat and back

Lounge

243CC

Lounge chair with solid beech base and cotton strap seat and back
