

# Large

Ramón Esteve

**EN** If there is a feature that defines the Large sofa, it is its marked horizontality. A chamfered platform acts as a base, while its legs are strategically hidden, generating the visual sensation that the sofa is levitating above the ground. Designed by Ramón Esteve for Lebom, the Large sofa is conceived as a generously proportioned modular piece that allows very diverse compositions to be created, adapting to each space and making it possible to furnish large living rooms with just a few modules. Its floating cushions enhance that feeling of lightness while providing total comfort.

**ES** Si hay un rasgo que define al sofá Large es su marcada horizontalidad. Una plataforma achaflanada actúa como base, mientras que sus patas quedan ocultas de forma estratégica generando la sensación visual de que el sofá levita sobre el suelo. Diseñado por Ramón Esteve para Lebom, el sofá Large se concibe como una pieza modular de proporciones generosas que permite crear composiciones muy diversas, adaptándose a cada espacio y haciendo posible equipar grandes salones con pocos módulos. Sus cojines flotantes potencian esa sensación de ligereza al tiempo que proporcionan un total confort.
