

BENCH

The benches are produced with 2 to 5 seats. Any one of the seats can be changed for a side table in lacquered MDF, available in a black or white colour. The crossbar is made from steel, with a profile featuring a 70x35mm oval section. The feet are in injection-moulded aluminium and are fitted with levellers in contact with the floor. The structure can be coated in thermoset polyester paint in the colours black, white or RAL 9006 aluminium.
