

DUO

by PerezOchando

Duo collection was born from PerezOchando's ambition of creating a piece that is visually lightweight and, at the same time, functional. The PerezOchando studio is known for using interesting shapes in its designs, and the inspiration for this collection, based on the figure of the Japanese hashi chopsticks, leaves nobody indifferent. It is a design with a balance between elegance and sensitivity.

“Duo collection can be used as a coffee table, side table or bedside table, thanks to its five sizes adjusted to cover different functions. The main feature of the table is their double legs that embrace the crossbars of the structure where the tabletops are placed in different finishes .”
