LIN TAPIZ

The collection

LIN TAPIZ

EN

LIN TAPIZ is an innovative system of multiple seats, designed to inhabit high-traffic indoor public spaces. With a refined and timeless design, the collection is completely modular and allows multiple configurations to be created.

The structure and arms are entirely made of aluminum alloy, a sustainable material which allows the creation of resistant and light benches, with minimal maintenance and 100% recyclable. Using intermediate legs and connection tables, the system allows the creation of benches with different shapes and infinite length.

FR

LIN TAPIZ est un système innovant de sièges multiples, conçu pour habiter les espaces publics intérieurs à fort trafic. D'un design épuré et intemporel, la collection est entièrement modulable et permet de créer de multiples configurations.

La structure et les accoudoirs sont entièrement en alliage d'aluminium, un matériau durable qui permet la création de bancs résistants et légers, avec un minimum d'entretien et 100% recyclables. À l'aide de piètements intermédiaires et de tables de connexion, le système permet de créer des bancs de différentes formes et de longueur infinie.
