

# Frank

## Architectural illusion

DESIGN  
Robin Rizzini, 2023

EN — Frank is a table inspired by architectural shapes and industrial materials. The structure on which the top rests is made up of two slightly curved die-cast aluminium bases with variable thickness. Seen from the front they are slightly arched and resemble the shape of a sail, creating a light and ethereal optical effect. Seen from the side, the volume appears full. Together, rational lines and curves contribute to conveying an image of lightness and contemporaneity.
